COMSEC LIAISON OFFICER, BRITISH EMBASSY

SUBJECT: LCSA/NSA R&D Discussions (U)

REFERENCES: (a) NSA letter, file CSEC-169, Subject: Summary of NSA/LCSA Discussions, dated 1 July 1960

(b) Memorandum, file V17/F252, Subject as above, dated 24 January 1961

1. It is a pleasure for me to confirm your Director's proposals for the Engineers' meeting planned at the LCSA/NSA discussions held in May 1960.
2. Arrangements will be made for approximately four of your representatives to visit RCA, Camden, N. J., and the Philco Corporation, Philadelphia, Pa. Dates for this visit will be selected when a meeting can be arranged with you to discuss the final agenda.
3. As you suggest, certain amendments to the agenda may be in order; accordingly, we concur in the direct discussions you recommend. Please contact Mr. David Wolfand, STED-02, telephone Parkway 5-4400, extension 7887, at your earliest convenience to arrange for these discussions.
4. We look forward to this visit which I am sure will be beneficial to the UK/US COMSEC research and development effort.

M/R: As a result of the LCSA/NSA discussions held in May 1960, it was recommended that an NSA/LCSA Engineers' meeting be held at NSA. The UK COMSEC Liaison Officer in a memorandum dated 24 Jan 61 sent to NSA a list of UK representatives and a proposed agenda. This letter concurs in the visit and suggests an early meeting with the UK COMSEC Liaison Officer to firm up the agenda and the representatives who will make the visits to RCA and Philco. Coordinated with Miss K. Ross, CSEC-04.

Maj. David F. Thwaites, USAF/STED-02/5114/pml/7 Feb 61
