MOUNT HOLYOKE COLLEGE SOUTH HADLEY, MASSACHUSETTS

November 30, 1943

Mr. William F. Friedman Chief Cryptanalyst Signal Intelligence Service War Department, Washington

Dear Mr. Friedman:

I am writing you on behalf of a close friend of mine, John Verrall, who is a member of our faculty and about to be inducted into the Army.

During the past year I have been giving him private lessons in cryptography and cryptanalysis and have found him an unusually able student. With me he has covered the following material:

Transposition ciphers - routes, grilles, columnar transposition
Substitution ciphers - Monoalphabetic, ditto with variants
Polyalphabetic

Vigenere, Gronsfeld, Porta, Beaufort
Running keys
Autoencupherment
Encipherment by variable plain text units
Encipherment by variable cipher text units
Digraphic, false and true

Tables Checkerboards Playfair

Superencipherment

- Fractionating systems

Having a keen interest in this type of problem Verrall has worked tirelessly and with unusual success in the solution of these types of cipher. I have been particularly impressed with the amount of real understanding he has brought to the work. Several times I found him working out for himself techniques of attack new to me and thoroughly sound.

Verrall reports at Camp Devens on December the fifteenth. His identification number is 3 1 4 1 5 8 9 6. I am writing you to ask if anything can be done to get him assigned to cryptanalysis work after he has finished his basic training. I am certain that his greatest usefulness to the Army would be in this field.

Verrall is one of the best teachers on our faculty. If there are no openings in cryptanalysis itself, he would make an excellent teacher of the subject. He is already competent to teach the elementary course in the subject.

Of course I am writing this letter with no real knowledge of the situation in your part of the Service. It may be that you can do nothing for Verrall. But I did think that to let you know about him would be doing a favor both to you and to him. I have been told recently that the Air Force is in great need of teachers of cryptanalysis. If you cannot use Verrall would you be in a position to make him known to the Air Force intelligence group?

I am glad to be able to give Verrall a high recommendation. As a cryptanalyst he has all of the best qualities: patience, real understanding of fundamental principles, willingness to experiment, and unbounded enthusiasm for and absorption in the work. He is a person of the highest character: loyal, trustworthy, discrete. Anything you are able to do to assist him will be appreciated.

Faithfully yours,

Prof. Roger W. Holmes 3 Stanton Avenue South Hadley, Mass

11 December 1943

Professor Roger W. Holmes 3 Stanton Avenue South Hadley, Massachusetts

Dear Professor Holmes:

I am sorry that a reply to your letter of November 30, could not be sent sooner.

It would appear that your friend Verrall would be an asset to us but unfortunately at the present moment, because the Second Signal Service Battalion is overstrength, we cannot do anything right now. It is, however, probable that something could be done a little latter and I will ask the Adjutant of the unit to let me know just as soon as the over-strength status is terminated. I suggest that either you or Verrall keep me informed as to his whereabouts.

With cordial greetings, I am,

Sincerely yours,

William F. Friedman
Director of Communications
Research

11 January 1944

Professor Roger W. Holmes 3 Stanton Avenue South Hadley, Massachusetts

Dear Professor Holmes:

During the latter part of November you wrote me concerning your friend Verrall. I wrote you on December 11th that because the Second Signal Service Battalion was over-strength we could not do anything at the time. I asked our people to keep me advised and they tell me now that the over-strength condition is adjusted and possibly something could be done for Verrall. What we need to know now is where he went from Camp Devens, giving his complete address. Upon receipt of this information I will see what action can be taken.

With cordial greatings for the New Year, I am,

Sincerely yours,

William F. Friedman Director of Communications Research REF ID: 700

William F. Friedman Headquarters, Army Service Forces Office of the Chief Signal Officer War Department, Washington, D.C.

Dear Mr. Friedman:

Thank you for your letter of the 11th of January.

John Verrall is still at Fort Devens, Massachusetts. His number is 31415896 and his address is Company A, R.C.

I appreciate the trouble you have taken to help my friend Verrall and am sure that if he can be placed in the Second Signal Service Battalion his work will justify the interest we have taken in him.

Faithfully yours,

Roger W. Holmes 3 Stanton Avenue South Hadley, Mass. It. Atd. Jan 22 from Holmes 25 Jan 44 Baying Variet had been sout to OM camp after lawing interner aicht, Told Fordier Verall well come have after Barie Francis

William F: Friedman Chief Cryptanalyst Office of the Chief Signal Officer Washington, D.C.

Dear Mr. Friedman:

My friend Verrall has asked me to inform you that he has been transferred to Camp Crowder, Missouri. His specific address is: Company B, 27th Signal Training Battalion. Apparently he wants to be sure that you people know where he is at all times.

Faithfully yours,

Roger W. Holmes 3 Stanton Avenue South Hadley, Mass. REF ID: A7003

Mr. Roger W. Holmes 3 Stanton Avenue South Hadley, Massachusetts

Dear Mr. Holmes:

Your request for financial support of the course in cryptenalysis being conducted at Mount Holyoke College has been examined with a view toward possible assistance by this Agency. Unfortunately there are no funds available from which it would be possible to underwrite such assistance. Therefore, it is with regret that I must inform you what this Agency cannot leri any financial support to your program.

Sincerely.

L.H. F406 Cerkein, US Nurr Chief of Sahi

M/R: This reply is the result of discussion with Mr. Friedman (S/ASST), Dr. Kullback of R/D, Mr. Raven of PROD, and Mr. Sullivan of PERS.

MOUNT HOLYOKE COLLEGE South Hadley, Massachusetts

Attention: Civilian Personnel

13 February 1954

Mr. James L. Kelley Chief MSA Procurement National Security Agency Washington, D. C.

Dear Mr. Kelley:

Mr. C. H. Penland visited Mount Holyoke College this week and had kind things to say of the course in Military Cryptography and Cryptanalysis which I teach here. He has advised me to write you concerning the future of the course at this College.

A few weeks ago, just before leaving South Hadley for an extended trip to Europe, President Ham called me in to his office to suggest that I make inquiries into the possibility that the expense of this course be carried by government defense money.

The college, like all others, is having financial difficulties and finds it necessary to retrench werever possible. Hence Mr. Ham has come to wonder seriously whether or not he can continue to find money for the course. His point is that the Government is helping the colleges in so many good ways to contribute to the defense effort that it ought to be willing to provide the small annual amount to keep this course going, five hundred dollars (\$500).

He wants very much to keep the course here because he knows how important it is to have a backlog of intelligent women trained in the skills of this work who can be called to Washington immediately in case of emergency. From my own work in World War II I know how badly they are needed and how quickly. We get at Mount Holyoke some of the ablest girls of each age group; and many of the best of these take the course. They take it either because they like this type of thing and are good at it, or because they are engaged to men who will be fighting if another war comes and they want to be of most value themselves. Both reasons are excellent.

I am sure I do not need to persuade you of these things. I should appreciate it if you would look into this matter. If you could find some source from which this amount could be paid Mount Holyoke College each year to keep the course going, President Ham and the College would be deeply appreciative.

Faithfully yours,

/s/ Roger W. Holmes
