Dear Captain Jackson:

Thank you very much for your letter of February 5, with its two inclosures.

The Rebel Cipher Key is interesting, but we happen to have a model, or rather a copy of the device itself in our own museum. I am glad, however, to have the blue print which you sent me. I am also glad to have the cipher alphabet of the Duke of Ragusa.

Thank you very much for your courtesies and with best wishes, I am

Sincerely yours,

William F. Friedman

Dear Col. Friedman -

While browsing around an old-book store the other day I found a...code-book...intitled "Telegraphic Cipher Code" compiled for the cotton trade and published 64 years ago.

Thinking that you may be interested and care to add it to your cryptographic library I am forwarding it under separate cover. If it is of no interest will you please dispose of it.

I have received the Advanced Military Cryptography course and am working on it as far as some disagreeable jury duty allows.

I find the course most interesting and I wish to

thank you for making possible

REF ID: A70021

Very truly yours

Frank L. Jackson

Dear Captain Jackson:

I should long ago have acknowledged receipt of your letter of December 14, and of the old code-book which you sent me. I have deposited the latter in our library. Thank you very much for your courtesy.

I am glad to know that you are continuing the work in the cryptography courses and feel that you are doing the right thing. With best regards, I am

Sincerely yours,
