Washington 25, D. C.

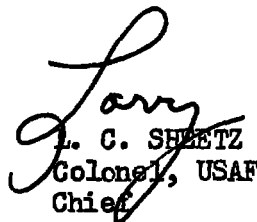

Dear Mr. Friedman:

Many thanks for another wonderful presentation.

We are constrained to mention again that your appearance in our school, as the "elder statesman" of the Comint field, is one of the highlights of our curriculum. The task we continue to ask you to assume is not an easy one and we know full well how difficult it is for you to take time from your busy Washington schedule to visit with us. But we appreciate your personal support even more knowing of the physical strain to which you have so willingly subjected yourself for our benefit.

Please continue to take good care of yourself so that it will be possible for many other Air Force officers to hear your story as only you can tell it.

Kindest personal regards to both you and Elizabeth.
