Mr. Stauffer, X 293

1. The subject applications, at present unclassified, may in normal course be expected to issue as patents in the near future.

2. AFSA-03 is of the opinion that such issue will not be objectionable from a security standpoint and that the cases do not require reclassification. Your comments relative to this matter are desired.

AFSA-02 concurs in the opinion contained in paragraph 2 above. It is felt that reclassification is not justified from the point of view of Operations.
