September 1958

CRYPTO-MATHEMATICS INSTITUTE
BULLETIN

1. The next monthly meeting of the Institute will be held Tuesday, November 4, at ~~0900~~⁰⁹³⁰ in the auditorium, when Dr. Nathaniel Gerson of REMP will discuss antipodal interception.
2. Since the editorial staff of the Technical Journal feel unable to take over the Bulletin until adequate facilities are made available to them, the Workshop Committee continues to publish, hoping that someday a way can be found to meet the modest needs--a room and secretarial help-- of the editorial staff.
3. The Treasurer, Dr. William Erskine, announces that there are only 25 Institute Members who are still delinquent in the payment of dues. Last call?
4. Members of the Institute may care to attend, occasionally, the Tuesday afternoon REMP-1 symposia held at 1400 in the conference room; enter by 2C030 or 2W037. Subjects, posted in the REMP-1 area, may be ascertained on extension 3461; the speakers are mostly REMP-1 personnel.
