EXECUTIVE ORDER 9865

WHEREAS the Government of the United States now has and will hereafter acquire title to, or the right to file foreign patent applications for, numerous inventions arising out of scientific and technical research carried on by or for the Government; and

WHEREAS it is in the interest of the United States to acquire patent protection abroad on certain inventions resulting from government-financed research; and

WHEREAS it is in the interest of the Government to foster, promote, and develop the foreign commerce of the United States:

NOW, THEREFORE, by virtue of the authority vested in me as President of the United States by the Constitution and statutes, and as Commander in Chief of the Army and Navy, and in the interest of the foreign affairs functions of the United States and the internal management of the Government, it is hereby ordered as follows:

1. All Government departments and agencies shall, whenever practicable, acquire title to inventions or the right to file patent applications on inventions resulting from research conducted or financed by the Government.

2. All Government departments and agencies which have or may hereafter acquire title to inventions or the right to file patent applications abroad thereon, shall fully and continuously inform the Department of Commerce concerning such inventions, except as provided in section 6 hereof, and shall make recommendations to the Department of Commerce as to which of such inventions should receive patent protection by the United States abroad and the foreign jurisdictions in which such patent protection should be sought. The recommendations of such departments and agencies shall indicate the immediate or future industrial, commercial or other value of the invention concerned, including its value to public health.

3. The Department of Commerce shall determine whether, and in what foreign jurisdictions, the United States should seek patents for such inventions and, to the extent of appropriations available therefor, shall procure patent protection for such inventions, taking all action, consistent with existing law, necessary to acquire and maintain patent rights abroad. Such determinations of the said Department shall be made after full consultation with United States industry and commerce, with the Department of State, and with other Government agencies familiar with the technical, scientific, industrial, commercial or other economic or social factors affecting the invention involved, and after con-
sideration of the availability of valid patent protection in the countries determined to be immediate or potential markets for, or producers of, products, processes, or services covered by or relating to the invention.

4. The Department of Commerce shall administer foreign patents acquired by the United States under the terms of this order and shall issue licenses thereunder in accordance with law under such rules and regulations as the Secretary of Commerce shall prescribe. Nationals of the United States shall be granted licenses on a nonexclusive royalty free basis except in such cases as the Secretary shall determine and proclaim it to be inconsistent with the public interest to issue such licenses on a nonexclusive royalty free basis.

5. The Department of State, in consultation with the Department of Commerce, shall negotiate arrangements among governments under which each government and its nationals shall have access to the foreign patents of the other participating governments. Patents relating to matters of public health may be licensed by the Secretary of Commerce, with the approval of the Secretary of State, to any country or its nationals upon such terms and conditions as are in accordance with law and as the Secretary of Commerce determines to be appropriate, regardless of whether such country is a party to the arrangements provided for in this section.

6. There shall be exempted from the provisions of this order (a) all inventions within the jurisdiction of the Atomic Energy Commission except in such cases as the said Commission specifically authorizes the inclusion of an invention under the terms of this order; and (b) all other inventions officially classified as secret or confidential for reasons of the national security. Nothing in this order shall supersede the declassification policies and procedures established by Executive Order Nos. 9698 of June 8, 1945, 9694 of August 25, 1945, and 9690 of December 12, 1946.

An Act to provide for assistance to Greece and Turkey.

Whereas the Governments of Greece and Turkey have sought from the Government of the United States immediate financial assistance which is necessary for the maintenance of their national integrity and their survival as free nations; and

Whereas each of the United Nations has recognized the seriousness of the unsettled conditions prevailing on the border between Greece on the one hand and Albania, Bulgaria, and Yugoslavia on the other hand, and, if the present emergency is met, may subsequently assume full responsibility for this phase of the problem as a result of the investigation which its commission is currently conducting; and

Whereas the Food and Agriculture Organization mission for Greece recognized the necessity that Greece receive financial and economic assistance and recommended that Greece receive such assistance from the appropriate agencies of the United Nations and from the Governments of the United States and the United Kingdom; and

Whereas the United Nations is not in a position to furnish to Greece and Turkey the financial and economic assistance which is immediately required; and

Whereas the furnishing of such assistance to Greece and Turkey by the United States will contribute to the freedom and independence of all members of the United Nations, in conformity with the principles and purposes of the Charter:

Now, therefore,

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, That hereafter, notwithstanding the provisions of any other law, the President may from time to time, if he deems it in the interest of the United States to furnish assistance to Greece and Turkey, upon request of their governments, and upon terms and conditions determined by him—

(1) by rendering financial aid in the form of loans, credits, grants, or otherwise, to those countries;

(2) by assisting to those countries any persons in the employ of the Government of the United States and the United States, and the provisions of the Act of May 25, 1938 (52 Stat. 442), as amended, to personnel detailed pursuant to such Act, as amended, shall be applicable to personnel detail pursuant to this paragraph: Provided, however, That no civilian personnel shall be assigned to Greece or Turkey to administer the purposes of this Act until such personnel have been investigated by the Federal Bureau of Investigation;

(4) by providing for the manufacture or otherwise the transfer to, those countries of any articles, services, and information, and (b) the instruction and training of personnel of those countries; and

(b) by incurring and defraying necessary expenses, including administrative expenses and expenses for compensation of personnel, in connection with the furnishing of such assistance.

Sec. 2. (b) Whenever the President requires payment in advance by the Government of Greece or of Turkey for assistance to be furnished to such countries in accordance with this Act, such payments when made shall be credited to such countries in the accounts established for the purpose and shall be allocated to the departments, agencies, or independent establishments of the Government which furnish the assistance for which payment is received, in such amounts and in such manner as shall be allocated under subsection (a) of this section. Any portion of such allocation not used as reimbursement shall remain available until expended.

(c) Whenever any portion of an allocation under subsection (a) or subsection (b) is used as reimbursement, the amount of reimbursement shall be available for entering into contracts and other uses during the fiscal year in which the reimbursement is received and the ensuing fiscal year. (1) Payment in advance by the Government of Greece or of Turkey shall be made only for any articles or services furnished to such country under paragraph (4) (A) of this section if they are paid for from funds advanced by the Reconstruction Finance Corporation under section 4(a) or funds appropriated under authority of section 4(b).

(2) No department, agency, or independent establishment of the Government shall furnish any articles or services under paragraph (4) (A) of this section to either Greece or Turkey, unless it receives advances or reimbursements from the proceeds of any personal or information received pursuant to this Act for the purpose of advancing or reimbursing all or any portion of such advances, and any expenses incurred in the discharge of the purposes of this Act.

As a condition precedent to the receipt of any assistance pursuant to this Act, the government requesting such assistance shall agree (a) to permit free access of United States Government officials for the purpose of observing whether such assistance is utilized effectively and in accordance with the undertakings of the recipient government; (b) to permit representatives of the press and radio of the United States to observe freely and to report fully regarding the utilization of such assistance; (c) not to transfer, without the consent of the President of the United States, title to or possession of any article or information transferred to this Act to permit to any other foreign government or to any other person, any article or information received pursuant to this Act nor to permit, without such consent, the use of any such article or the use or disclosure of any such information by or to anyone not an officer, employee, or agent of the Government for the purpose of advancing or reimbursing all or any portion of such advances, and any expenses incurred in the discharge of the purposes of this Act.

Notwithstanding the provisions of any other law, the Reconstruction Finance Corporation is authorized and directed, until such time as an appropriation shall have been made pursuant to subsection (a) of this section, to make advances not to exceed the aggregate $10,000,000 to carry out the provisions of this Act, in such manner and in such amounts as the President shall determine.
(b) There is hereby authorized to be appropriated to the President not to exceed $400,000,000 to carry out the provisions of this Act. From appropriations made under this authority there shall be repaid to the Reconstruction Finance Corporation the advances made by it under subsection (a) of this section.

The President may from time to time prescribe such rules and regulations as may be necessary and proper to carry out any of the provisions of this Act; and he may exercise any power or authority conferred upon him pursuant to this Act through such department, agency, independent establishment, or officer of the Government as he shall direct.

The President is directed to withdraw any or all aid authorized herein under any of the following circumstances:

1. If requested by the Government of Greece or Turkey, respectively, representing a majority of the people of either such nation;

4. If the President finds that any of the assurances given pursuant to section 3 are not being carried out.

Sec. 6. Assistance to any country under this Act may, unless sooner terminated by the President, be terminated by concurrent resolution by the two Houses of Congress.
