

Patent Papers folder  
M134-T1

My dear Freedman -

Many thanks for the information regarding the status of Application Serial #588,344. Under the circumstances issue will now probably be made. Am returning the copy to you for your files inasmuch as you may need it.

The M-134 T2 is coming along O.K. A little patience now is better than a slip shod job in the end.

I may have certain entirely different ideas to submit to you some of these fine days, but these considerations have no bearing upon the M-134 T2 whatever.

Very truly yours  
George A. Graham
