

M134-T1
SISDE-5WAR DEPARTMENT
SIR
OFFICE OF THE CHIEF SIGNAL OFFICER
WASHINGTON

June 6, 1932

Mr. George A. Graham,
Signal Corps Laboratories,
Fort Monmouth, New Jersey:

Dear Graham:

Replying to your note of May 27, I can see no objection to submitting a copy of our recently issued patent to the A. T. & T. Company.

I hope that the nominal sum that they talk about in connection with the printer patent turns out to be something worthwhile.

I shall be interested in learning any future developments in connection with our present model being constructed.

} M134-T1

Very truly yours,
