CIP-DEV-CRY?

My dear Friedman -

Re your letter of April 5 -  
I have sent the Eng. Report to you  
for signature.

Thanks for the printer  
dope, I will look into it.

The machine is working  
at from  $1\frac{1}{2}$  to 2 rev. per sec.  
but I am not satisfied. Am  
shooting at 4 per sec. and  
feel that I can do it. More  
later.

Very truly yours

George A. Guham
