MEMORANDUM TO: Research and Development Division
(THROUGH War Plans & Training Division)

1. Attached hereto are draft specifications, claims, and a drawing covering a new type of cipher machine upon which letters patent are desired. It is requested that they be forwarded to the Patents Section with the request that they be prepared for submission to the Patent Office.

2. This cryptograph represents a modification of the principles underlying cipher machine type M-134-T2, which is now being constructed at the Signal Corps Laboratories. It is not intended, however, that the development referred to be in any way affected by the present invention, which represents an alternative scheme that may be desirable to develop at some future time.
