Hazel Adams - Remembers Winds Codes but not as of the date of trans. Prob saw them afterwards when back lfc was being cleared up. ~~Trans~~ Does not remember anything about a "winds execute" usage.

Mrs Stivers - Remembers Winds Code but not from P.H. days - Remembers them because Miss Prather was looking for them "several months ago" since search was made. Doesn't remember anything about Winds execute.

Re "Secret File" - kept 1st in Col. Atkin's safe - then Col Doud - then back to Bull Sec when it was still kept separate until we moved to Arlington. File then taken out of secret status & usages amalgamated into regular Bulletin prior to microfilming. Amalgamation done by Sgt. Steinmetz - now at OCS.
