## Teletype Service.

1 Plant Div.  
THRU OIC,  
Operations  
Br.

1. It is requested that teletype service (TWX) be procured for the following three (3) stations with equipment as listed:

a. SIS Code room (Room 3339 Munitions Bldg) to consist of 1 Page printer.

b. Monitoring Station 1 Fort-Monmouth, Hancock, New Jersey to consist of 1 Page Printer with facilities for tape perforation and transmission.

c. Monitoring Station 2 Presidio of San Francisco, California to consist of 1 Page printer with facilities for tape perforation and transmission.

2. The three stations should not be listed in the TWX directory.

3. This service is necessary to expedite the transmission of material from Monitoring stations 1 and 2 to the SIS. A delay of as much as 3 days will be eliminated. The Navy has this service. Detailed operating instructions will be furnished Monitoring Stations 1 and 2 by the SIS.

4. It is requested that these installations be expedited and SIS be advised expected date of completion as soon as possible.

5. Approximate total cost will be \$300.00 monthly.

3 S.I.S.

Orders for TWX service requested in Action 1 have been placed with Telephone Company with request to expedite. As discussed with Lt. Col. Minckler by Maj. Topping:

a. Installation for Mon. Sta. #1 will be made at Fort Hancock instead of Fort Monmouth.

b. Unattended service has been specified, but may not be immediately available due to shortage of equipment. This, however, will not delay installation of service, and unattended feature will be added as soon as possible.

c. Installations in Munitions Bldg. and at Fort Hancock will be made at once, and at San Francisco with a few days. Call numbers will be:

S.I.S. Code room	- Washington 153
Fort Hancock	- Highlands, N.J. 555
San Francisco	- San Francisco 279
