

ARMY SERVICE FORCES
SIGNAL SECURITY AGENCY
WASHINGTON 25, D. C.

SPSIS-1

1 June 1945

SUBJECT: Maintenance of Security Standards After the End
Of the European War

TO:

1. As the result of victory in Europe, the universal tendency has been to relax many of our war-time restrictions. However, restrictions that affect security of the activities of Arlington Hall Station and the Signal Security Agency cannot now, or at any time in the future, be relaxed.

2. The future safety of the United States requires that all persons, military or civilian, who have had any contact with signal security and signal intelligence operations continue to maintain secrecy regarding these operations during the remainder of the war and in peace as closely as it has been maintained in the past.

3. I am anxious that you thoroughly understand the implications of this letter and sign the attached certificate. When completed, the certificate should be returned to your Branch Personnel Officer.

1 Incl
Certificate

W. Preston Corderman
W. PRESTON CORDERMAN
Colonel, Signal Corps
Commanding

~~RESTRICTED~~
