NSA OPERATIONS ORDER ANNEX
NUMBER 211-1

NATIONAL SECURITY AGENCY
Washington 25, D. C., 16 March 1955

EFFECTIVE UNTIL RESCINDED OR SUPERSEDED

[Redacted] COMINT ENTITY

SECTION

DEFINITION	I
INTERCEPT CONTROL	II
SPECIAL IDENTIFICATION TECHNIQUES	III
TEXTA	IV
TRAFFIC ANALYTIC RESPONSIBILITIES	V
CRYPTANALYTIC RESPONSIBILITIES	VI
TRANSLATION RESPONSIBILITY	VII
REPORTING RESPONSIBILITIES	VIII
SOURCES OF TECHNICAL SUPPORT	IX
LIAISON	X
DISTRIBUTION	XI
TRAFFIC FORWARDING	XII

PL 86-36/50 USC 3605
EO 3.3(h) (2)

SECTION I - DEFINITION

[Redacted]

SECTION II - INTERCEPT CONTROL

1. [Redacted] to control those positions currently designated Category C (NSA Circular 51-10) which have been assigned to [Redacted] to cover the [Redacted] Activity.

2. [Redacted] to control nine positions at [Redacted] to provide additional cover on the [Redacted] Activity. These positions as currently designated and with designators effective upon decentralization are as follows:

Current Designation

New Designation

POROCO "M"
POROCO "R"
POROCO "T"

POROCO 3
POROCO 4
POROCO 5

3. In exercising control over these positions it is necessary that [] consider the National Security Agency (NSA) requirement for receipt of all encrypted material passed on the cases listed below. Changes to this list will be forwarded to [] through technical channels.

PL 86-36/50 USC 3605
EO 3.3(h) (2)

4. On those positions assigned to control as Category C positions [] will provide NSA with the following:

a. Notification of changes in assignment by electrical means in a separate intercept coverage series.

b. A monthly recapitulation of intercept assignments by courier to NSA within 5 working days after the end of the month.

5. NSA is responsible for adjustments in the total number of positions to be assigned to each category (NSA Circular 51-10). [] will keep NSA informed of changes in the number of positions manned.

SECTION III - SPECIAL IDENTIFICATION TECHNIQUES

[] is responsible for operational control of [] equipments installed at [] is to be responsive to NSA requirements for application of Special Identification Techniques.

SECTION IV - TEXTA

1. NSA will continue to be the authoritative source for TEXTA on all [] Activity and will publish and distribute the official TEXTA cards based on consideration of the information received from []

~~TOP SECRET CONTROL NUMBER 55-0214~~

COPY OF 130 COPIES
PAGE 2 OF 8 PAGES

~~TOP SECRET EIDER~~

NSA OPERATIONS ORDER ANNEX NO. 211-1

16 March 1955

2. TEXTA information which may be developed at [] will be forwarded electrically to NSA and [] as suggested TEXTA.

SECTION V - TRAFFIC ANALYTIC RESPONSIBILITIES

1. It is the responsibility of [] to perform traffic analysis as required for the following purposes:

- a. Intercept control.
- b. Provide technical support to the local cryptanalytic effort.
- c. Permit accomplishment of the COMINT technical reports required by NSA (see paragraphs 1a and 1d, Section VIII).
- d. Permit accomplishment of the COMINT end-product reports as required (see paragraphs 2a and 2d, Section VIII).

2. NSA will continue to perform such traffic analytic tasks as required to provide technical support and to insure full integration of COMINT information from all areas as may concern the []

[] COMINT entity.

PL 86-36/50 USC 3605
EO 3.3(h)(2)

SECTION VI - CRYPTANALYTIC RESPONSIBILITIES

1. NSA is responsible for the determination of those cryptographic systems to be processed by []. Normally, NSA will make this determination by applying the following key and assigning those systems falling in States of Solution 3 through 5.

- 0 - Little or nothing known of cryptographic elements.
- 1 - Basic type of crypto-system determined.
- 2 - System partially solved but no messages yet readable.
- 3 - Less than 50% of all messages in the system readable to the extent of producing some intelligence.
- 4 - Over 50% of all messages in the system readable to the extent of producing some intelligence.
- 5 - Readability essentially complete.

2. Initially, the cryptanalytic responsibilities of [] are as follows:

a. [] and Signal Intelligence systems. [] will perform normal cryptanalytic functions on traffic available in the theater and will forward key and code recoveries regularly by electrical means to NSA. NSA will retain responsibility for coordination with both U.S. and non-U.S. centers processing this material in other areas.

COPY OF 130 COPIES
PAGE 3 OF 8 PAGES

~~TOP SECRET EIDER~~

16 March 1955

NSA OPERATIONS ORDER ANNEX 211-1

b. [] will be responsible for current key recovery and for distribution of keys by means acceptable to [] and [] will forward to NSA by electrical means all current information on key generation and suggestions for code recoveries. NSA will supply [] with monthly key recoveries and will periodically distribute lists of code recoveries to USN units and to []

c. [] may perform key recovery on available traffic in this system, forwarding resultant recoveries to NSA and the 6920th Security Wing.

3. [] will notify NSA by message, with appropriate precedence, of all changes in encryption. When a system changes to State of Solution 2 or below (initially determined by []) will immediately begin forwarding the raw traffic to NSA by electrical means. NSA will advise [] when this electrical forwarding may be discontinued.

4. Temporary [] system short titles will be assigned by [] and forwarded to NSA in accordance with NSA Circular 52-1.

5. [] is responsible for submitting monthly cryptanalytic status reports (NSA Circular 52-17) recapitulating the status of all systems which have been assigned to the station. NSA will issue monthly cryptanalytic status reports as necessary on systems in States of Solution 0, 1 and 2.

PL 86-36/50 USC 3605
EO 3.3(h)(2)

SECTION VII - TRANSLATION RESPONSIBILITY

1. [] is to continue to include translations made from [] and [] intercept and from Soviet [] activity of all messages which relate to [] activity (e.g. indications of areas closed to navigation, etc.). Translations of the relevant [] activity should continue to be forwarded in the [] Summary and, when required, as part of the COMINT reports prepared by []

2. To prepare translations of decrypts derived from the cryptanalytic function assigned in Section VI.

SECTION VIII - REPORTING RESPONSIBILITIES

1. Technical Reports - [] will prepare the following technical COMINT reports:

- a. Intercept coverage series. (See paragraph 2.a, Section II.)
- b. TEXTA dispatch series. This series will contain suggested new notations, amendments, etc. Other items pertaining to TEXTA matters.

~~TOP SECRET EIDER~~

NSA OPERATIONS ORDER NUMBER 211-1

16 March 1955

c. Traffic Analysis (T/A) Technical Dispatch Series. This series will contain the technical data supporting items in the Far East Intelligence Summary (FEIS) or spot reports that require documentation or technical amplification, and other items such as: call-sign, [redacted] tentative call-sign, [redacted] [redacted] proposed order of battle notations; and discussion pertaining to these items as required. Additionally, this series is to include any specific decrypts required to support controversial items in the FEIS.

d. Cryptanalysis (C/A) Technical Dispatch Series. This series will contain items of a purely cryptanalytical nature; i.e. code recoveries, textual encipherment key recoveries and any discussions of encipherment systems pertaining to the text or the techniques of textual recovery.

e. Weekly Technical Notes.

f. Such additional technical reports as are presently or may be required by NSA Circulars (50-series) or as derived from the normal analysis activities of the station.

PL 86-36/50 USC 3605
EO 3.3(h) (2)

2. Envi-Product Reports - [redacted] will prepare and forward the following end-product reports:

- a. Daily Far East Intelligence Summary (FEIS)
- b. Spot Intelligence reports
- c. Individual translations not included in a. and b. above
- d. Unit type studies and unit histories as capabilities permit, and which can be accomplished without detriment to the assigned responsibilities. NSA is to be kept informed of any such projects undertaken, preferably at the time plans are formulated. Any reports prepared are to be forwarded to NSA in draft form for review and publication.

SECTION IX - SOURCES OF TECHNICAL SUPPORT

1. [redacted] is responsible for the provision of technical support to any subordinate detachment, or to HAVSICGRUDETS as may be designated, and to those units at which [redacted] has been given intercept control

~~TOP SECRET CONTROL NUMBER 55-0214~~
COPY _____ of 130 COPIES

~~TOP SECRET EIDER~~

NSA OPERATIONS ORDER ANNEX 211-1

16 March 1955

responsibilities. Technical support on the [redacted] COMINT Entity to be provided by [redacted] will be that which is derived from the tasks assigned in this paper and from collateral material which may be available to [redacted] and releasable to other U. S. COMINT units.

2. NSA will continue to provide technical support to [redacted] and [redacted] both from effort at NSA on the [redacted] Activity and from facilities available to NSA.

3. NSA retains the responsibility for dissemination of official [redacted] identifications and for order of battle notations. When any "unofficial" [redacted] identifications and order of battle notations are used by [redacted], such entries will be preceded by the word "tentative."

SECTION X - LIAISON

1. No liaison with non-U. S. COMINT units is authorized in connection with the tasks assigned in this paper.

2. Liaison with U. S. COMINT units in the area of [redacted] is permissible.

SECTION XI - DISTRIBUTION

PL 86-36/50 USC 3605
EO 3.3(h) (2)

1. Technical Reports

a. TEXTA dispatch series to NSA, NSG, and [redacted]

b. T/A Technical Dispatch Series to NSA, NSG, and [redacted] per the Teletype Forwarding Directive. These reports may be forwarded, at the discretion of [redacted] to other activities authorized to receive the information.

c. C/A Technical Dispatch Series to NSA, NSG, and [redacted] per the Teletype Forwarding Directive. These reports may be forwarded, at the discretion of [redacted] to other activities authorized to receive the information.

d. Weekly technical notes will be forwarded by courier at the close of the reporting period. NSA, NSG, and [redacted] each require one copy of the weekly technical notes containing only T/A items; two copies if both T/A and C/A items are included.

c. One copy of texts of decrypted messages, by courier to NSA.

2. Final-product Reports

a. The Far East Intelligence Summary (FEIS) will be distributed electrically to the following:

- (1) NSA
- (2) CNO
- (3) COMNAVFE
- (4) CINCPACFLT
- (5) Fleet Commanders, CARDIV Comdrs, and Task Force Comdrs, as designated by CNO to the Director, NSA.

PL 86-36/50 USC 3605
EO 3.3(h)(2)

(6) FEAF

[Redacted]

- (8) SSO, Hq, Strategic Air Command (Naval Air portion only)
- (9) SSO, Hq, Air Defense Command (Naval Air portion only)
- (10) 6920th Security Wing
- (11) ASAFE (pass to SSR FEC for CINCFE, SSR Eighth Army Adv and SSR AFFE/Eighth Army)
- (12) USN-469 (NSA pass [Redacted])
- (13) USN-466 (NSA pass)

[Redacted]

b. Spot intelligence reports will be distributed electrically to the following:

- (1) NSA
- (2) CNO
- (3) COMNAVFE
- (4) CINCPACFLT
- (5) Fleet Comdrs, CARDIV Comdrs, and Task Force Comdrs, as designated by CNO to the Director, NSA.

(10) 6920th Security Wing

(11) ASAFE (pass to SSR FEC for CIICFE, SSR Eighth Army Adv and SSR AFPE/Eighth Army).

[Redacted]

c. Unit type studies and unit histories will be forwarded to NSA in draft - one copy.

3. All courier material for [Redacted] is to be packaged separately and forwarded to NSA, marked for the appropriate agency. All electrical material [Redacted] is to be transmitted to NSA with appropriate passing instructions.

SECTION XII - TRAFFIC FORWARDING

[Redacted] is to forward copies of all intercepted traffic to NSA in accordance with the NSA traffic forwarding directive.
