AS-90 AS-24 21 Jun 48 Research and Development Division Program FY 1949 Report
THRU: AS-80

Attached herewith is Research and Development Program Fiscal Year 1949 Report for comments and/or recommendations.

1 Incl
Cy rpt on R&D Div Program
for FY 1949

/s/ A.V.W.
A. V. WHITEHEAD
Major, Signal Corps
Chief, Materiel Section
Ext 216

THRU: AS-90
2. TO: AS-20 AS-80 22 Jun 48

Mr. Clark Ext 241

1. Security Division has the following specific comments on the inclosed Research and Development Program Fiscal Year 1949:

a. On page 9, Project 5-6302, the remarks under this project infer that Research and Development Division actually completed 250 SIGROD. Recommend revision of this comment to indicate the true status of this work by Research and Development Division.

b. Page 11, Project 48-1314, correct project title should be "Construction of SIGTOT for Installation in the Bataan."

c. Page 21, item 4, the words CRYPTICVISION, CIVISION and CIPIV have all been used to describe encrypted television. It is recommended that one standard term be selected.

2. As a general comment, it is noted that different nomenclature, i.e., old and new, are used more or less indiscriminately. It is recommended that in future reports consistent nomenclature be selected.

F. L. CLARK
Acting Chief, Security Division
