II. WAR HISTORIES UNDERWAY

and

III. WAR HISTORIES UNDER REVISION

As far as can be determined there are no war histories actually underway or under revision. All studies that might be included in these two categories are listed under Section IV as prospective war histories.

~~TOP SECRET COPSE~~~~TOP SECRET COPSE~~

~~TOP SECRET COPSE~~~~TOP SECRET COPSE~~

IV. PROSPECTIVE WAR HISTORIES

A. A history of subsection GYA-3 was noted in 1946 as "partially completed (Brandy)". This was being prepared by GYA-3 and was stowed in NY-4. Present location and status is unknown.

B. A study on security leaks was noted in 1946 as begun by NA, the purpose being to bring up to date the study contained in chapters III-V of RIP 98. (See subsection A-1 of this inventory.) It was planned to publish this material as a RIP. Present location and status is unknown, except that Op-202 has a current file on the subject.

C. Studies of the part played by communication intelligence in the Pacific during World War II have not been made for battles subsequent to the Solomon Islands campaign. Studies of at least the great engagements at Saipan, the Philippines, and Okinawa should be undertaken. Much of the material suitable for this purpose is on file in the archives in the form of RI Summaries.

(Note: The series of studies entitled THE ROLE OF COMMUNICATION INTELLIGENCE IN THE AMERICAN-JAPANESE NAVAL WAR has been completed at NCA only through the Battle of the Eastern Solomons, Aug. 22-23, 1942. [See subsection A-1 of this inventory.] The series was continued, in a somewhat different form, at FRUPAC covering, however, only three months: December 1942, January and February 1943. [See section B of this inventory])
