MEMORANDUM FOR AFSA-12

SUBJECT: USCIB 13/195

1. Except for the one comment which follows in the next paragraph, I feel that the paper as it stands substantially reflects my views on the subject which it covers and with relatively minor exception it has the approval of my Staff Advisors.

2. On page 20 of the draft Appendix in paragraph 7 a change has been incorporated which makes it now contrary to my original intent. I believe that as it now reads it contains material which is covered in another section. I therefore recommend in lines 5, 6, and 7 the word "indoctrinated" and the phrase "cleared for the classification appertaining to its content" be deleted and the period be placed after the word "personnel".

3. The copy of subject named document is returned herewith as per your request.
