

FROM MAJOR PERDUE
IM 226

~~SECRET~~
17 June 44 (TWX to I&L from SB)

SUBJECT TRANSMISSION OF MATERIAL RECEIVED FROM NAVY

1. We have received the following information from Navy cln

SHANGHAI NR 2 WEATHER UNIT ORIGINATED A LONG FOUR-PART STANDARD REPORT AT 1313, 8 JUNE, AND A LONG TWO-PARTER AT 1523, 11 JUNE, TO USUAL ADDRESSEES. IN THE PAST, THE SUBJECT MATTER OF THESE REPORTS HAS BEEN JAPANESE SOLUTIONS OF WEATHER CODES USED BY U.S. AIR FORCES IN CHINA, GIVING METHOD FOR DECRYPTION, CODE RECOVERIES, ETC. THESE ARE THE FIRST REPORTS NOTED FROM NR 2 WEATHER UNIT SINCE 26 MAY AND THE LENGTH SUGGESTS THAT THE JAPS HAVE AGAIN BEEN SUCCESSFUL IN BREAKING WEATHER CODES USED BY U.S. AIR FORCES IN CHINA.

2. THE ABOVE MAY BE OF INTEREST TO LT COL KULLBACK AND TO YOUR CODE SECURITY SECTION.
