SIS-SC Form No. 96 (Rev)  
 23 August 1944

Note C messages attached. This is no doubt the Australian Announcements Code which is in use by our AAC S stations.

C Branch has wired Sig O SWPA for check on certain values to determine if it is actually that code. G Branch is also taking steps to issue a substitute of much higher security (a big card with strip coordinates). Of course we can't tell the Australian what to use but I believe the AAF is willing to have their other system wired to the AAC S units concerned.

For some background info on AAF codes to show where the code in question fits - see attached R+W page 2.

Note Japs have apparently read new edition of code in 3 days.

WR

Case in point. Held  
for ~~the~~ result of proper  
division of respons. bet.  
G-2 + Sec. Div.
