In view of the attached, do  
 you agree it would be advisable  
 to ask that State Dept make  
 a formal request of the War  
 Dept to have the survey made?  
 Note that letter says can  
 communicate with Secretary  
 of Joint Chiefs of Staff but  
 I think it would be better

THE JOINT CHIEFS OF STAFF  
Washington, D. C.

The Honorable  
Cordell Hull,  
Secretary of State,  
Washington, D. C.

Dear Mr. Secretary:

The ease with which codes and ciphers of the non-military agencies of our enemies are being broken by our experts has raised the question in the minds of the Joint Chiefs of Staff as to the security of codes and ciphers used by similar agencies of our Government. The ability of our cryptanalysis experts to decode enemy messages has been our most valuable source of information. The Chiefs of Staff wish that you be informed of this, as a matter of great secrecy, in order to emphasize the importance of security in these matters. They feel that we must credit the enemy with having its experts who are just as capable as ours in cryptanalysis work. They are deeply concerned over the hazards to which our ships and troops may be exposed through the use of ineffective codes by various Governmental agencies.

The Joint Communications Board, an agency of the Joint Chiefs of Staff, has at its disposal the best cryptographic experts in the United States. The services of these experts can be made available to the State Department to analyze its codes and ciphers from the standpoint of security and to suggest methods for their improvement. It is hoped that you will make use of the services of these experts. This can be accomplished by communicating with the Secretary of the Joint Chiefs of Staff who will

make the necessary arrangements.

Sincerely yours,

For the Joint Chiefs of Staff:

JOHN R. DEANE,  
Brigadier General, U. S. Army,  
Secretary.

SIMILAR LETTERS TO ALL OTHER  
NON-MILITARY AGENCIES WHICH  
USE CODES AND CIPHERS IN THEIR  
COMMUNICATIONS.
