

INTERNATIONAL TELEPHONE AND TELEGRAPH CORPORATION

67 BROAD STREET

NEW YORK

November 19, 1931

Major William F. Friedman,
Chief, Code and Cipher Section,
War Department,
Washington, D.C.

Dear Major Friedman:

Mr. Clokey tells me that he is not in shape to give you the cable printer information yet. It seems that these receiving printers were in the laboratory when we had to put them on the All America Cables and that he had nothing but working drawings out of which he assembled the others. He says he is working to get up a complete story in proper form and that he will be glad to send it to you as soon as it is ready, which I take it he figures will be about thirty days; it may be a little longer. He says he has no blue prints whatsoever.

I hope you haven't been able to break down our scrambler yet.

Faithfully yours,

Frank C. Page

Frank C. Page
Vice President

Oh yeah?
