1st Although the general American code has not yet been broken here in Finland, it is being studied. (It is difficult to get into the diplomatic code because of work on the Russian code, difficulties of keeping in touch with ***** **, and Major HIROSE's language study. Therefore, please do your best to exchange material with us.)

2nd. American telegrams wired from Berne are in the 4-1 strip code, which is generally used by ambassadors and ministers, but with Berne it is used for keeping in touch with American special agents assigned to Germany.
