1. VISIT TO MARSHALL FOUNDATION, LEXINGTON, VA. (U)

(U) Russ Fisher, accompanied Mr. Mike Levin, Chief, Q43, to the Marshall Foundation, Virginia Military Institute, Lexington, Virginia, from 4-7 April. Their mission was to review the collection left with the Foundation by former NSA Director LTGEN Marshall S. Carter and portions of the William F. Friedman Collection, also reposing in the Marshall Foundation. Several items of interest to NSA were discovered in these collections, and appropriate action to protect them was taken. Discussions with Foundation officials concerning personal security clearances, protection of certain unclassified but sensitive information, and a request for additional Special Research Histories also took place. There is still some material in the private and personal correspondence files of Mr. Friedman which should be reviewed for sensitivity, and another visit by the NSA team was suggested for early fall. The official TDY report on the trip will be issued later by Q43, with input from Mr. Fisher on issues of specific concern to T54. (R. Fisher, T5413, 972-2268s)
