

USCIB: 3.5/4

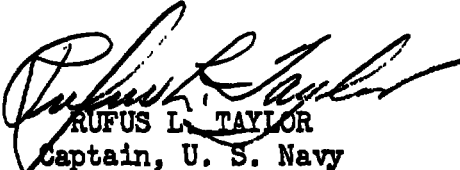

6 May 1954

TOP SECRETMEMORANDUM FOR THE MEMBERS OF USCIBEC:

Subject: Canadian Request for Copies of NSA Scientific Advisory Board Entitled "The Potentialities of COMINT FOR Strategic Warning".

Reference: USCIB 3.5/3 dated 4 May 1954.

It is desired to point out that the reference should have included a statement to the effect that the appendix dealing with Electronics Intelligence (ELINT) (Appendix X) was forwarded at the insistence of the Special Study Group of the NSA Scientific Advisory Board. The study group believes the report to be incomplete without the ELINT Appendix and feels that distribution of this material to the Canadians is important due to its close relationship to the problem of air defense of the North American Continent.
