

USCIB: 4.2/45

~~HANDLE VIA COMINT CHANNELS ONLY~~

3 May 1955

~~TOP SECRET~~MEMORANDUM FOR THE MEMBERS OF USCIB:

Subject: Consolidation of GIBD #7 and GIBD #14.

Reference: USCIB 4.2/43 dated 18 April 1955.

1. Vote sheet replies from USCIBEC on the reference indicate approval by all members with one member noting a minor exception.

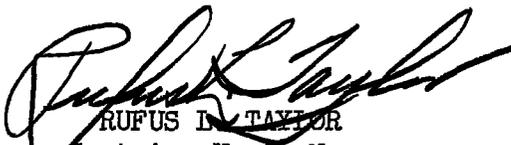

2. The Army member expressed misgivings over the restrictive nature of a strict interpretation of the first sentence of paragraph 1 of Annex B. Consideration of that wording by this office led to the conclusion that it could and should be changed and that the change could be made without in any way vitiating the practical intent of the Security Committee in its original selection of words. This office therefore suggests a change as follows:

1. It is considered at present that ~~all persons who have~~ any person who has been indoctrinated for Category II or III COMINT and ~~have who has~~ who has been exposed to the end products of, or processing within these categories, ~~will~~ may have "knowledge of current value" and ~~should be assigned~~ becomes a candidate for assignment to at least Groups B and C respectively.

3. The Army member also suggested the addition (to Annex A paragraph 2) of the Offshore Islands of Formosa as areas of undue risk.

4. On the assumption that the above emendations will be acceptable to the remaining USCIBEC members the reference as emended above is herewith submitted to USCIB under interregnum procedure.

5. Absence of objection by any member of USCIB prior to 1700, 11 May 1955 will be considered to constitute Board approval. If approved, page corrections will be issued at that time.

RUFUS D. TAYLOR
Captain, U. S. Navy
Executive Secretary, USCIB
