~~SECURITY INFORMATION~~**SUBJECT: Dissemination of US Communication Intelligence to CBNRC**

1. Your attention is directed to the "U.S. EYES ONLY" designation of this memorandum.
2. The pertinent policies regarding availability of U.S. communication intelligence to CBNRC are interpreted as follows:
 - a. Technical publications, such as interim reports, furnished CBNRC will be limited to those pertinent to Canadian tasks and consonant with all the special considerations connected with our processing tasks.

~~This document is to be read only by those personnel officially indoctrinated in accordance with communication intelligence security regulations and authorized to receive the information reported herein.~~

3. The above principles will be applied within the Office of Operations to the release not only of AFSA publications of all kinds, but also to information furnished informally or orally to CBNRC representatives or visitors.

4. Recently the Senior Canadian Liaison Officer prepared an up-to-date consolidated list of AFSA publications desired by CBNRC.

EO 3.3(h)(2)
PL 86-36/50 USC 3605

SUBJECT: Dissemination of US Communication Intelligence to CBNRC

(v) Status reports and "highlights" intended for CBNRC or CBSIO will be sent to AFSA-202, which group will screen them before forwarding or delivery.

(b) The release of a publication to CBNRC must be appropriately recorded, i.e., it must be possible to determine whether CBNRC did or did not receive any given AFSA publication. This is a responsibility of the releasing authorities designated above.

(c) Requests to start or stop distribution of a regular AFSA publication to CBNRC or CBSIO should be referred to AFSA-202 in order that an up-to-date list may be maintained by that group. If your check reveals that some releasable regular publications now being given to Canada do not appear in the consolidated list above, check with AFSA-202 before discontinuing them, as they may have been omitted inadvertently.

8. The foregoing merely reaffirms the policies under which we have been functioning for some time. Our present practices should be checked against them and any deviations found corrected. It is important, furthermore, that everyone authorized to release AFSA information to CBNRC and GCHQ be given a clear understanding of these principles and apply them in dealing with CBNRC and the representatives of that center. Refer any extraordinary requests or developments to AFSA-202, who will obtain a policy ruling if no precedent exists.

EO 3.3(h)(2)
PL 86-36/50 USC 3605

CBNRC Requirement for AFSA Comint Publications

1. In its memorandum of 9 May 1952, AFSA-25 requested CBNRC to review its requirement for AFSA Comint publications. This has been done and an attempt is made herewith to present the total requirement, including technical reports, in simple and up-to-date form.

2. Most of this paper is a listing of items which AFSA has been sending to CBNRC for some time. In a few places a change has been made in the number of copies desired. Some of the AFSA-26 material, however, has not been included in previous requests. That which is new is so indicated and AFSA approval for exchange of this material is invited.

3. While this summary is intended to cover all bulletins and reports now being sent to CBNRC, some may have been omitted inadvertently. It is requested that any such omissions be brought to our attention before action is taken to discontinue sending them.

5. This paper when approved, will supersede any earlier list of requirements for Comint publications.
