USCIB: 9.3/12 Item 3 of the Agenda for the 19th Meeting of USCIBEC, held on 21 September 1954.

Subject: USCIB Master Requirements List (USCIB 9.3/7).

When the Chairman introduced this item and asked for comments, MR. POLYZOIDES stated that he has had insufficient time in which to give the matter due consideration and asked that a postponement be granted.

CAPTAIN TAYLOR stated that there is one rather pressing problem in connection with this item, namely, the provision of guidance to the Intelligence Committee. He said that he understands NSA will provide information on this point, and asked if the members wished to delay consideration until such information is forthcoming.

Following a brief discussion it was agreed to defer further consideration of this item with the understanding that it would be forwarded to the Intelligence Committee for study with a view to determining whether Intelligence Requirements are currently set forth in a form which is most suitable and useful to all concerned. The Intelligence Committee report, when complete, will be referred to USCIBEC for consideration.

DECISION: (21 September 1954) USCIBEC agreed to defer consideration of this item and referred the matter to the Intelligence Committee for its opinion regarding the adequacy of the report and recommendations as to what changes or additions, if any, are advisable to increase its usefulness.
