MEMORANDUM FOR THE MEMBERS OF USCIB:

Subject: Increase in Scope of USCIB Authority (ELINT).

1. The following is the tentative record of decision reached by USCIB at its 102nd Meeting on Friday, 9 April 1954 with relation to item 3 of the agenda of that meeting and is circulated in advance of the minutes for the convenience of the members:

"USCIB agreed in principle that it recommend to the National Security Council that USCIB authority be extended to the ELINT field in the same manner as it now extends to the COMINT field except insofar as this applies to the COMINT operations of the Director, National Security Agency. USCIB further agreed that a committee be established under the cognizance of the Department of Defense Member to recommend specific proposals for the extension of USCIB cognizance to the ELINT field; designation of committee members to be forwarded to the Executive Secretary, USCIB. A report from the subject committee will be expected to be submitted in time for consideration at a Special Meeting to be held Friday, 23 April 1954."
