USCIB: 29.3/34 Item 5 of the Agenda for the 103rd Meeting of USCIB, held on 14 May 1954.

Subject: French Communications Security.

THE ACTING CHAIRMAN (General Cabell) informed the members that Mr. Armstrong wished to present information on this subject for consideration by the members.

MR. ARMSTRONG stated that on 22 May 1954 the Secretary of State had received the British Ambassador, Sir Roger Makins, who had been instructed by the Foreign Office to raise the

Secretary Dulles, he said, had taken note of the request, informing the Ambassador that he would refer the matter to appropriate authorities and provide an answer as soon as he could.

Mr. Armstrong continued by saying that he had discussed the request with Mr. Allen Dulles prior to making a recommendation to the Secretary and, since that time, has obtained the Secretary's views, which are to the effect that this is an inopportune time to make such an approach because of (1) the uncertain status of the present French Government, and (2) the situation which now obtains as a result of the recent Security discussions in Paris. He said that the Secretary favors a reply which will inform the British that we cannot agree to their proposal at this time, and added that he had prepared a draft memorandum from the Chairman, USCIB, to the Secretary of State which he would like to read for consideration by the members. His draft memorandum was as follows:

"1. The United States Communications Intelligence Board (USCIB) has considered carefully the UK proposal -- presented to you on May 8, 1954 by Sir Roger Makins -- that immediate steps be taken to

It is believed that these talks have been effective, particularly with reference to French practices
