1 NOVEMBER 1954

TO: DIRECTOR

FROM: [REDACTED]

FOR DULLES AND SECRETARY, USCIB

FROM GENERAL ACKERMAN AND MILLER

EO 3.3(h)(2)  
PL 86-36/50 USC 3605

1. Following understandings in principle have been reached after two days of meeting attended by DURBROW, General Ackerman, Miller, [REDACTED] and [REDACTED]

a. Coordination of COMINT operations to avoid duplication of coverage.

b. Electrical transmission of selected COMINT material from that presently received to bases for quick transmission forward to U.S.

c. Inclusion in each base of small [REDACTED] unit, entirely separate from U. S. operation area but under U. S. command for assigned listening.

d. [REDACTED].

2. The formula worked out in "c" above was SOP to give appearance of joint facilities. Under this formula, [REDACTED] clearly understands that while [REDACTED] units of 30/40 at most may have access own technical area and administrative area, admission to U.S. technical area will not be permissible. In other words, the U.S. will be fully in control of its own security in the COMINT area.

3. Based on this understanding, the matter will presumably go forward subject to factors affecting the progress of all installations included in the base rights agreement.

4. General Ackerman departed 31 October, arriving Washington 1 November.

Enclosure with USCIB: 29.9/8 dated 4 November 1954.
