MEMORANDUM FOR THE MEMBERS OF USCIB

SUBJECT: [Blank]

1. Reference is made to USCIB 29.13/1, dated 13 April 1954, which contained information concerning an exchange of correspondence with Director, GCHQ, on our [Blank] arrangements.

2. In a subsequent letter, the Director, GCHQ, informed me that it would be pointless for the U.K. to pursue negotiations along the lines proposed by the [Blank] officer. He indicated that his decision was based upon the expectation of the U.S. to conclude a more beneficial arrangement with [Blank] and also on the political objections in [Blank].

3. Director, GCHQ, recognizes that this decision may result in complete cessation of the present [Blank] material forwarded to the U.K., but he hopes that the loss to our combined efforts will not be permanent in the light of an anticipated increased service of raw material to the U.S.
