~~TOP SECRET - SECURITY INFORMATION~~MEMORANDUM FOR THE MEMBERS OF USCIB:Subject: Notification to LSIB of
Negotiations.

Reference: USCIB 30/18 dtd 30 December 1952.

1. The reference has been approved subject to the following amendments, recommended by the Director, NSA:

a. Draft memorandum, paragraph 2. Delete the last sentence and substitute the following:

"During the course of these discussions, the provided details of their fairly comprehensive intercept search program. The United States expressed an interest in having an expanded intercept service monitor certain selected areas when that service has the requisite personnel and equipment."

PL 86-36/50 USC 3605
EO 3.3(h) (2)

b. Enclosure 1, paragraph 2. Delete the last sentence.

c. Enclosure 1, paragraph 4. Delete paragraph and substitute the following:

"4. Copies of intercept selected from material obtained by an expanded intercept service."

d. Delete Enclosure 2 in its entirety.

2. The change in the draft memorandum (paragraph 1a, above) is recommended to assure the British that presentation of U.S. requirements was based solely on revelations made during the discussions. The deletion of Enclosure 2 (paragraph 1d, above) is recommended because all the projected intercept is a future hope, and it is not considered that inclusion of the list of desired targets would be particularly valuable at this time.

3. The originator of the reference has accepted these recommended amendments.

4. It is requested that the remaining members of USCIB, all of whom approved the reference originally, give their concurrence by vote sheet to the amendments set forth in paragraph 1, above. Vote sheet replies should be returned prior to 29 January 1953.
