1. In response to reference (a), the Director, Naval Communications designates Captain Rufus L. 1. I have been asked by the Secretary of Defense to name a representative to participate in discussions which are intended to establish a working directive of policies and procedures for Communication Security within the executive branch of the Government. I have designated Mr. William F. Friedman of this Agency as my representative.

2. In order that the views of the Service Cryptologic Agencies may be available to me and to Mr. Friedman, I will welcome the designation by each Service Agency of a competent and qualified individual in this field to act as adviser to Mr. Friedman during these deliberations. I cannot appoint them as principals to participate in the discussions; however, they will be given every opportunity to discuss freely with Mr. Friedman the ramifications of the proposals under consideration and to make recommendation to him as to suggested positions or actions best designed to fit the requirements of their Service.

3. In view of the fact that similar Service advisers are being made available to the Director, Communications-Electronics, who will also participate in the discussions, it is strongly urged that any intra-Service differences of opinion or position be resolved by these advisers at Service level prior to being presented to Mr. Friedman.
