Professor Andrew H. Gleason
 B-24 Lowell House
 Harvard University
 Cambridge 38, Massachusetts

Dear Andy:

I am snowed under with the problems of my new job. I may not be able to wait until 1 April to discuss things with you. Meanwhile we are still awaiting your WAE contract.

From our conversation of last week I inferred that you were offering your service to us for the month of August, and IMA and D.C. were equally attractive. It would help our efforts to support SCAMP if you would go to IMA. Will you do this? Incidentally I expect to be there for at least the first month, and very probably longer. We expect Bob Shaw, Oscar Rothaus and Phil Johnson to be out there the full time from here, and people like Joe Bachus and Abe Sinkov parttime.

I hope your form 57 business is straightened out. As Ben wrote you Paige needs one.

We still haven't received the signal on Ginny's safe arrival, but she may be stranded in Paris. I hope so.

Please let me hear from you and give my regards to George Mackoy and Joe Walsh and any other locals whom I know.

Cordially,

R. A. LEIBLER
 Chief
 Mathematical Research Division
 Research and Development
