 HqC - Commander Sorensen
 - Mr. Myers
 LOG - Colonel Kincaid
 - Mr. Cassidy
 COMF - Commander Hott
 - Mr. Maltenfort

Agenda: NSA Support Requirements for FY 1957

.

1. Colonel Gregory presented a brief summary of NSA planning schedules and the relationship between those schedules and FY 1957 support requirements. LCDR Dickey submitted and explained in detail the letters and documents specifying the support required from the Services and other Governmental agencies in FY 1957.

2. Major changes in the support requirement documents ordered by PBA were: (1) complete revision of the Ft. Meade submission to distinguish between requirements during the interim move period (1st and 2nd Quarters, FY 1957) and requirements during and after completion of the final move (3rd and 4th Quarters, FY 1957); and (2) to indicate more clearly that modification of the support requirements is dependent on the date of the final move.

3. Additional submissions by LOG on Navy support for the St. Paul installation and support to be requested from the Navy Material Catalog Office were authorized.

4. With the exception of the submission on Ft. Meade, the support requirement letters and documents, subject to the changes authorized to be made by P/P, were approved. The revised Ft. Meade section and the additional submissions will be routed to PBA members for approval as soon as completed.

Chas. L. Wilson Jr.
 LT. COLONEL, USAF
 EXECUTIVE SECRETARY
 PROGRAM AND BUDGET ADVISORS
