

**NSA/CSS EVALUATED PRODUCTS LIST
for
HIGH SECURITY SOLID STATE DESTRUCTION DEVICES**

The Evaluated Products List (EPL) contains a listing of high security destruction devices evaluated by the National Security Agency/Central Security Service (NSA/CSS) that meet the performance requirements of NSA/CSS Specification High Security Solid State Destruction Devices. Inclusion of a product in the EPL is not an endorsement by NSA/CSS or the U.S. Government.

The NSA/CSS Storage Device Sanitization Manual 9-12 provides sanitization guidance for all classified media storage devices. Evaluated products must reduce any solid state memory chip to an area of four millimeters square or less with no long edge greater than two millimeters. All destruction devices listed meet the NSA/CSS sanitization specification for optical media, the devices with optical media listed in the acceptable media column have met the duration requirement.

The EPL alphabetically provides the disintegrator device name, model number, and contact data for the distributor and/or sales marketing agent contacts for each destruction device evaluated for sanitization of all classification levels. The EPL also lists the acceptable material and throughput rating based on circuit board destruction of pounds per hour.

This EPL captures all High Security Solid State Destruction Devices evaluated to NSA/CSS Specification since April 2012. All approved models that are discontinued and/or no longer manufactured remain on the EPL. Updates to the EPL will be on an as-needed basis. Users are encouraged to contact disintegrator manufacturers and/or distributors for assistance in selecting unit(s) best suited to their requirements. If a user has questions about a specific model not listed on the EPL, they can contact the Center for Storage Device Sanitization Research (CSDSR) at 301-688-1053, send an e-mail to CSDSR@nsa.gov, or contact their respective Client Advocate Service listed below.

The procedures for administration and distribution of the EPL are subject to change without notice. If there is an inquiry, US Government users should contact designated customer support channels through the NSA/CSS Information Assurance Directorate (IAD) Client Advocate Services. For IAD Client Advocate support to Civil and DoD Agencies, please call 1-410-854-4790 and for Military Services, Intelligence, and Combatant Commands please call 1-410-854-4200. If you prefer to send an e-mail, please contact us at NIASC@nsa.gov. For all other inquiries, please contact the NSA/CSS Public Affairs Office via phone at 301-688-6524 or send an e-mail to nsapao@nsa.gov.
