CSfC Selections for Stateful Traffic Filtering Firewall

Stateful Traffic Filtering Firewall products used in CSfC solutions shall be validated by NIAP/CCEVS or CCA partnering schemes as complying with the current requirements of NIAP's collaborative Protection Profile for Network Devices (cPP ND) version 2.1 and PP-Module for Stateful Traffic Filtering Firewalls (MOD cPP FW) version 1.3. This validated compliance shall include the selectable requirements contained in this document.

CSfC Selections for cPP NS Evaluations:

At this time, the CSfC Program does not require any selectable requirements from within the collaborative Protection Profile for Network Devices.

CSfC Selection for MOD cPP FW Evaluations:

At this time, the CSfC Program does not require any selectable requirements from within the PP-Module for Stateful Traffic Filtering Firewalls.
